
calender clock

Posted by flower - 20/12/2009 16:28

I bought Mum a calender clock from Jadco on your site
She loves it ,as it is big and clear and she
can see it without her glasses.It will give her more
confidence,as she wont have to ask others all the
time. Merry Christmas.:)

That is so great to hear Flower, we have had loads of terrific feedback about these clocks because, as you say, they give the person with dementia in the early stages confidence whilst boosting their self-esteem. Perhaps other members have stories about useful items they have used. And Merry Christmas to everyone too!
Read more in our article, [Staying in Control of Date and Time](#).
